

# Typical Specification

Item: Stainless Steel planters

## Materials Used

- Brushed Stainless Steel
  - Grade 430
  - Nominal thickness 0.8mm
- Bright Annealed (Mirror) Stainless Steel
  - Grade 430
  - Nominal thickness 0.8mm

## Fabrication Process

- Seams
  - All seams are fabricated by way of a 'lockform' arrangement
- Corner fixing
  - All corners are fixed with rivets
- Drainage
  - As standard our planters are made with drainage holes in the bases and are not water tight
  - Planters can be specified without drainage holes
